

**GAS COMBI
STEAMER**

PRESSURELESS COOKER

Created the energy saving system by recovering & re-using the wasted heat.
Stainless steel semi-permanent & noiseless "Head Pin Burner".

GOKI-400A

GOKI-700A

HEAD PIN BURNER
(Noiseless & Stainless Steel
Semi-Permanent Burner)
Patent No.10-0938392

FEATURE & BENEFITS

- ◆ Voice message (information) system.
- ◆ Possible for setting of steam temperature & continuous supply of steam (continuous cooking) by proportional control system.
- ◆ User can set steam temperature and time by their needs and also possible to set additional temperature and time during cooking.
- ◆ Automatic heat preservation system after cooking.
- ◆ Mounted heat exchanger.
Users can control steam temperature freely.
- ◆ Using hygienic, semi-permanent & noiseless Head Pin Burner (Patent Registered).
The flame hole head is made of stainless steel.
10cm higher than other burner to prevent being wet when cleaning.
- ◆ Minimized an error occurrence in ignition time.
In case of weak or abnormal ignition while supply the primary gas, the secondary gas can be supplied automatically to prevent error occurrence.
- ◆ Equipped internal temperature sensor & safety thermostat to prevent overheating.
- ◆ Error message function.

Automatic Control Panel
with Voice Message.

JS Gas Combi Steamer: Noiseless
Burner (Head Pin Burner)

Other Brand: Loud noise during
cooking (Jet Burner)

Light but strong.
Curved edge to avoid injury.
